Ship your suit with insured tracking via UPS, FedEx, etc. Dive Right in Scuba cannot be held responsible for lost suits during transit. Only include necessary items for repair, such as valves and seals. There is a \$25 charge for reinstalling Fusion Skins, Waterproof Skins, or Mustang Skins onto suits. If the skin is included, we will assume you agree to the \$25 fee for reinstallation. Avoid sending wet drysuits, as this can damage the suit and cause issues for our repair technicians.
